Messrs Hough and Church had on exhibition at their store on Gay street yesterday the Jersey heifer, Mab, raised by the late Gen. R. S. Ewell, at Spring Hill farm near Nashville. Mab was sired by Pioneer, and is of strawberry roane with black points. Any one wishing to see her can do so by calling at the store.

Mr. Parmetier and another agent have sold several tickets to the Fair to a number of gentlemen in Maine and Vermont. Another one to some parties in Florida. We learn that the good work is going on in earnest. In a town north of this city, a number of gentlemen have united for the purpose of buying all the tickets for sale in the hands of agents there. Pitch in, gentlemen, and take one or more of the splendid premiums offered by the officers of the Fair.

A Fw More Dreams.

A gentleman in a neighboring town had a dream the other night. While slumber-ing sweetly his uncontrolled mind became prodigiously exercised about obtaining the capital premium (\$5,000) at our approaching Fair, and he dreamed that No. 925 would take it. Sensible to the last, he applied to Secretary Charlton for it. The Secretary says that he hopes there will be ten thousand such dreams. Who will dream next?

Accident on the Mountain.

Accident on the Mountain.

From our esteemed friend Mr. N. T. Beal, of Hawkins county, we learn the following particulars of an accident that took place on Monday last at little War Gap, on the south side of Clinch Mountain. Two ladies and the same number of gentlemen were descending the mountain in a two-horse wagon, when the lock gave way on a curve which threw the wagon on the horses, precipitating the wagon with the ladies down an embankment fifteen feet high. The ladies were severly bruised and received. The ladies were severly bruised and received several flesh wounds. Their escort chivalrous-ly (?) jumped out in time and were not hurt. It was a narrow escape from death

General Burnside.

General Burnside.

The Portland papers say General Burnside received a most hearty greeting from a goodly number of the old Ninth Corps while there at the Soldiers' Convention. One ardent veteran seized the General's hands in his and said 'General, you don't know me, but I know you; I was a private in the old Ninth Corps, and I want to look in your face again.' The grand old commander was evidently touching at the warmth of the greeting; but the private and General should be censured for stirring up sectional animosity by reviving the memories of the past. If the General should ever visit this section he would receive as warm a greeting from every loyal East Tennesseean, for the remembrance of his gallantry and the brave men of his command will never be forgotten while life lasts.

Fifty years ago Gen. Brazelton went to Baltimore to lay in a stock of goods to sell here.
This place was then called "Tuckertown." He
billed his goods to "New Market," That's all
about the name of the place.
The National Camp Meeting will be represented by about fifteen families from this place.
Jefferson county takes near seven tests.

Jefferson county takes near seven tents.

Jefferson county takes near seven tents.

The organ in the Presbyterian Church was so badly damaged by mice last week that Mr. Hodgson, of your city, has been employed to repair it. The mice had built a nest in the very bowels of the instrument.

Mr. Dice, who lives here, has around his dwelling house the champion grape vine of East Tennessee. It is nine inches in circumference at the ground. Two branches of it reach fifty feet each way around his house, and a third prong extends thirty feet to the meat-

third prong extends thirty feet to the meat-

The vine is of the Isabella variety and is ten years old. Mrs. Dice, last year gathered seventy pounds of grapes from this vine.

Horace Meek died at Mossy Creek, on Saturday night of look jaw. He stuck a nail in his heel two weeks ago, which resulted in his death.

Another Fire at Maryville.

Our town, so unfortunate from the subtle element, was again alarmed yesterday evening at about half past 5 o'clock by the cry of "fire." The first seen was the smoke and flames emitting from the rear end of Eli H. McKinney's ting from the rear end of Eli H. McKinney's residence in that portion of town known as West Maryville. Unfortunately, none of the family was at home, Mr. McKinney having gone out on a temporary absence, and his family was on a visit to a neighbor's. As soon as men could get to the house, they burst into it and saved all that was in the lower rooms, but the fire had such hold on the upper part of the house that no one could get into the rooms of the upper story. Very near all the bedding and clothing of the family was in the upper portion of the house and was lost.

tion of the house and was lost.

The house was a beautiful cottage and a new one, having been built only a year or two.

The origin of the fire is not definitely known.

Mr. McKinney had built a shed to the rear end Mr. McKinney had built a shed to the rear end of the house near the the roof of which there was the mouth of a flue from the stove, and it is thought likely that a spark was carried from the fire in the stove through this flue and fell on the roof, which being very dry easily caught on fire and ournt very rapidly.

A collection was taken up on the ground and our citizens responded liberally, but Mr. McKinney's loss is hoavy, and will be felt the heavier because he is a poor man.

Maryville, Sept. 11, 1872

Mesers. Califes & Day. Birmingham:
GENTS: I have been suffering from third-day chills, which re-wited in Debility and Dyspepsia, for twelve month- past, and ha ing tried all other liver m dicines advertised, tog-ther with other remedies, without any relief. I was advised and used your great layer Comp and, which has given perfect satisfaction and I consider myself about well of Dyspepsia and my health about as good as ever

Looking Cheerful. MESSES. EDITORS: I am much obliged to you for your willingness to publish every item of interest concerning our Fair. Here is another

"G. W. Chartton—Dear Sir: Unless I am Providentially prevented, I will exhibit some eight or ten of my Short Horns at your coming Fair. Among them will be my two year old Bull, Albert Edward, weighing now 1,725 pounds. GEO. W. PALMER. "SALTVILLE, VA., Sept. 11, 1872.

The animal referred to is said to be one of the finest in Virginia. Mr. Palmer is doing for that State what some enterprising gentleman should do for East Tennessee. From all the indications, I take it upon myself to say that the approaching Fair will be a glorious success.

C. W. CHE.TON.

Burglary at Ebenezer,

On Monday night the store of Kim. Sterling, at Ebenazer, was entered by two burglars, who went through the money drawer and ransacked things generally. While they were thus engaged, John Price, who wished to buy a lot of bacon, came to the store and knocked, when bacon, came to the store and knocked, when the door was opened by the thieves, who, as soon as he entered, presented a pistol at his breast and asked if he had any money. He re-plied in the affirmative, when they told him to hand it over, which he did, amounting to thir-ty-four dollars. The robbers got more than one hundred dellars in all, and escaped with their spoils. No clue yet to the perpetrature.

For the Legislature

To the voters of Brad ey and Pak counties: As I have been solicited time and again to be As I have counties, I will be more considering time. ix15daw2t

Announcement.

EDITORS CHRONICLE: Announce my name as a candidate to represent the counties of Campbell, Scott and Union in the next General Assembly of Tennessee. David Parker.

Simmons' Liver Regulator, if persisted in, will cure the most stubborn Liver disease. There is no failure about it.

As a remedy for Bronchial Affections and Chronic diseases of the Lungs, nothing ever be-fore discovered equals Dr. Pierce's Golden Med-ical Dicovery.

The Culture of the Hair.

Just as sure as a soil infested with Canadian thistles can be made to produce fine crops of golden grain, the scalp now sparsely covered with harsh, dry, unmanageable hair can be made prolific of silken tresses. All that is necessary to effect the change in either case is the right kind of fertilizer. Leaving the agricultural chemists to determine how the barron land tural chemists to determine how the barron land shall be made fruitful, we positively assert that Lyon's Kathairon is unequaled as a fertilizer and beautifier of the hair. Twenty-five years of success is the basis of this unqualified statement. During that time it has been used by many millions of both sexes, and the first instance in which it has failed to fulfill the expectations of a rational purchaser has yet to be discovered. It will not cause hair to grow on a varnished gourd; but wherever the roots of the hirsute fibers remain undisturbed it will cause them to put forth new shoots, and in all cases where the hair has become thin it will increase its volume.

The Benefit of Good Advice.-Thanks to MRS. WINSLOW'S SOOTHING SYRUP, we have for years been relieved from sleepless nights of painful watching with poor, suffering, teething children.

ANNOUNCEMENTS OF CANDIDATES. For Congress.

Disease Recoils

From the system that has been invigorated and regulated by a course of that most beneficent of all vegetable elixirs, Hostetter's Stomach Bitters. Such at least is the inference we are compelled to draw from the testimony of thousands of persons residing in unhealthy districts, who attribute their escape from the epidemic and other complaints which prevail there in the spring and autumn solely to the use of this great protective and preventive medicine. Many western and southern farmers and planters, as invariably as they sow and plant in the spring and resp and gather in the fall, administer it at those seasons to their families and employes, and take it themselves from twice to three times a day. The demand for it in the fever and ague d. stricts bordering on the Mississippi. Ohlo and Arkansan rivers is immense, and wherever the natural cond tions are such as to generate inte mittest or remit-ent fevers it is neld in the highest cateers, both as an a that to the atmospheric virus which provokes them and a a swift and certain remedy for those distressing forms followse. The wast popular of the Bitt is his of our selection many cust if the did it it is instable the community are required to be on their guard.

Drugs and Medicines.

THE ROMANCE OF CURE

The many evidences of extraordinary cures that are daily reported as effected through

DR. RADWAY'S Sarsaparillian Resolvent,

Rendy Relief, and Perfect Purgative Pills, in written testimonials from all parts of the world, surpass in wonder the most extrawagant miracles of enchantment. Physicians and medical men in all countries pronounce these wonderful remedies a mystery, that neither their science of analysis or chemical skill can explain. True, these medicines effect the most marvelous cures, and restors the dying to life, and relieve the mest wretched pain-suffering victim of his torture, in from one to twenty minutes, and although they know some of the ingredients of their composition, and Dr. Radway has published their formula (withholding only two newly discovered roots) still both French, German, English and American chemists and pharmaceutists utterly fail with the same ingredients as prepared by them. The great success which these wonderful romedies are constantly achieving, lies in the great secret of combining the ingredients together after exercising due care in selecting the pure and genuine roots.

Such wonders of Modern Chemistry as the SARSABILUIAN RESOLVENT, READY RELIEF & RADWAYS PILLIS, are without parallel in the history of
medicine, for there are some infirmities and diseases
that are considered as incurable, and sure death. Yet
the most astounding cures have been made through
these remedies of some diseases that have never been
known to be cared by medicine.

CONSUMPTION, SCROPFULA, WHITE SWELL,
ING, Tumors in the Womb, Stomach, Ovaries, Bowels,
Bright's Disease of the Kidneys that have been pronounced incurable, Cancers, Uleers, Swellings, Stone in
the Bladder, Calculous Concretions, Ulcers and Sores
of the Bones, Rickets so deeply scated that no other
medicines have ever see thoown to reach, have been
cured by the SARSAPARLILIAN RESOLVENT, aided by the READY RELIEF and PILLS.

Palsy, Paralysis, Day GARGRESE—that threatens a

ed by the READY RELIEF and PILLS.
Paley, Paralysis, Dav Gargerse—that threatens a living death—daily rotting away of the limbs and flesh—Diabetes, Involuntary Discharge of Water, Fungi in the Bladder (the Emperor Napolen's disease). Torturing Pains when discharging urine, RHEUMATISM, GOUT, NEURALGIA—each and every one of these complaints—though but few out of the many other diseases, Radway's Sarsaparillian Resolvent has cured and is daily curing in all parts of the world.

In one word, any disease—no matter under what name designated, that is nourished or increased by Bad, impure, deprayed, weak, thin, watery or poisoned blood—can be cured by RADWAY'S SARSAPARILLIAN RESOLVENT.

Dr. Radway & Co. have never claimed one-hundredth part of the curative virtues for their remedies as a sorthed to them by the people who have used them for bear in mind, only such diseases and complaints a Dr. Radway, after successful treatment with their remedies knew they would cure, were enumerated in their curative list, so that many of the extraordinary cares that have been reported awakened as much astonishment in the discovery of their remedial agents as in those who had been rescued from death, and madwhole and sound.

As many persons discredited their extraordinar power, from the fact of their disappointment is the use of other advertised remedies—and some believed it impossible for simple medicines made only from vegetable substances—roots, berbs., &c.—should possess sussmarvelous power. Yet, they can readily comprehend that the simple grasses of the field, after undergoing the chemical process of distillation designed by nature in the cow and churn, furni-hes us with butter—cortainly the most abundant fat, caloris or heat-making combone, itsue, muscle, sinew and blood-making constituents for the human body.

But when those people who first doubt the efficacy of these remedies commence their uss, they become their most carnest advocates.

OVARIAN TUMOR CURED.

Never has a medicine taken internally been known to have cured tumors either of the womb, uteri, ovaries, or bowels; the knile has been the sole reliance in the hands of experienced surgeons; but Dr. Radway's Sarsaparillian settles this question. For it has cured over twanty persons of Ovarian Cysrs and Tumors, as well as Tumors in the bowels, uterus, womb, liver, Dropsical Effusion, Ascites, and Calculus Concretions. AN IMPORTANT LETTER from a prominent gentleman and resident of Cincinnati, Ohio, for the past forty years well known to the newspaper publishers throughout the United States:

New Yong, Oct. lith, 1879.

Dr. Radway—Dear Sir: I am induced by a sense of duty to the suffering to make a brief statement of the working of your medicine on myself. For several years I had been affected with some trouble in the bladder and urinary organs, which some trouble in the bladder and urinary organs, which some twelve months ago culminated in a teribly afflicting disease, which the physiciang all said was a spasmodic stricture, in the urethra as also inflammation of the kidneys and bladder, and gave it as their opinion that my age—73 years—would prevent my ever getting radically cured. I had tried a number of physician; and had taken a large quantity of medicine, both alopathic and homeopathic, but got no relief. I had read of astonishing cures haying been made by your remedies; and some four months ago I read a notice in the Philadelphia Saturday Evening Post of a cure baving been effected on a person who off and got some of each—your Sarsaparillian Resolvent, Ready Relief and Regulating Pills—and commenced taking them. In three days I was greatly relieved, and now feel as well as ever.

C. W. JAMES, Cincinnati, Ohio. QUOTATIONS,-70a75c per cwt., or 20a25c per
